DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-22 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent no. 5,601,246 to Takahashi.

Takahashi, in Figure 11 for example, discloses a dual bearing reel adapted to be attached to a fishing rod, comprising:

a basic unit including

a spool 3 for winding or reeling out a fishing line by being rotated in normal or reverse direction,

a spool driving mechanism (Fig. 12) for driving said spool 3, and

an attachment frame 1 to which said spool 3 and said spool driving mechanism are

attached with said spool 3 and said spool driving mechanism

being allowed to function in cooperation with each other; and

an outer plate portion 2 that is attached to said attachment frame 1 of said basic unit, said attachment frame 1 allowing said spool 3 and said spool driving mechanism to function in cooperation with each other without said outer plate portion 2 being attached to said attachment frame 1.

Response to Arguments

Applicant's arguments with respect to claims 1-22 have been considered but are moot in view of the new ground(s) of rejection.
